MAINTENANCE AND REPAIR SERVICES AGREEMENTS  
(ALL SUPERVISORIAL DISTRICTS)  
(3 VOTES)**

**SUBJECT**

Approval of amendments to seven existing equipment maintenance and repair services Agreements for the provision of preventive maintenance and repair of electrical distribution systems and endoscopes.

**IT IS RECOMMENDED THAT THE BOARD:**

1. Authorize the Director of Health Services (Director), or his designee, to: a) execute an amendment to Agreement H-700773 with International Line Builders, Inc. (ILB), effective upon execution to extend the term for the period July 1, 2016 through June 30, 2017, for the provision of preventive maintenance and repair services of electrical distribution systems at County facilities with a total annual maximum obligation of \$853,000; and b) delegate authority to increase the annual cost by no more than \$85,300, or 10% of the total annual cost to provide for possible out-of-scope repairs or maintenance to equipment that is not yet covered under the Agreement.
2. Authorize the Director, or his designee, to execute an amendment to the Master Agreements with each of the five contractors listed on Attachment A, effective upon Board approval to extend the term for the period July 1, 2016 through June 30, 2017, for the provision of preventive maintenance and repair services for endoscopes of various manufacturers, at all County facilities, with an estimated total annual cost of \$410,497 for all agreements.

**ADOPTED**

BOARD OF SUPERVISORS  
COUNTY OF LOS ANGELES

22 May 24, 2016

LORI GLASGOW  
EXECUTIVE OFFICER

3. Authorize the Director, or his designee, to execute an amendment to Agreement H-706477 with Olympus America Inc. (Olympus), an Original Equipment Manufacturer (OEM), effective upon execution, to increase the total annual maximum obligation by \$330,000 to \$1,186,227 for the provision of preventative maintenance and repair services of Olympus-made endoscopes, with no change in term of the Agreement.

4. Delegate authority to the Director, or his designee, to execute future amendments to all agreements above to: (a) incorporate administrative changes to the Agreements, including but not limited to, the addition, modification, or removal of any relevant terms and conditions, to clarify terms and conditions and comply with changes in applicable law, with prior approval by County Counsel; (b) add equipment/services to additional DHS facilities and/or County Departments; and (c) cover emergency or unforeseen as-needed equipment maintenance, repair, and support services.

### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

#### **ILB Amendment**

Approval of the first recommendation will allow the Director, or his designee, to execute an amendment with ILB, substantially similar to Exhibit I, for the continued provision of preventive maintenance and repair services of electrical distribution systems at County facilities. The current Agreement expires June 30, 2016. The recommended amendment will extend the current Agreement term from July 1, 2016 through June 30, 2017.

ILB provides maintenance and repair services for electrical systems at Department of Health Services (DHS or Department) facilities. These systems are of the utmost importance to facility operations and critical to patient care. During preparation to release the competitive solicitation targeted for the early part of 2016, it was determined that medium and high voltage electrical distribution systems definitions vary not only throughout the industry, but throughout the world. Therefore, it became critical that a careful review of the approach and definitions of DHS' electrical distribution system, for the purpose of equipment repair and preventive maintenance, be incorporated into the solicitation. This solicitation is anticipated to be completed during this extension period.

#### **All Endoscope Agreements**

In 2010, the Department released a Request for Statement of Qualifications Solicitation to obtain services of various qualified contractors through Master Agreements. This allowed DHS to secure the best prices and options from various contractors for endoscope preventive maintenance and repair services throughout DHS. In recent years, with the introduction of enterprise-wide efforts and re-evaluation of purchasing practices, the Department has also adapted to new business practices that support standardization of certain value enhancing purchases and services. This standardization streamlines costs, increases quality, and allows for better negotiated terms of OEMs. Accordingly, the Department is standardizing equipment by areas of expertise, and Olympus was determined to be the OEM contractor best suited to provide Gastroenterology endoscopes throughout all facilities. DHS also continues to maintain Master Agreements to service older non-Olympus endoscope equipment that was previously purchased from alternate manufacturers, in order to maximize life-time performance of each endoscope and its accessory-parts.

## Endoscope Master Agreements

Approval of the second recommendation will allow the Director, or his designee, to execute amendments, substantially similar to Exhibit II, for the continued provision of preventive maintenance and repair services for non-Olympus endoscopes at County facilities. The current five Master Agreements expire on June, 30, 2016. Approval of this recommended action extends the current Master Agreement term from July 1, 2016 through June 30, 2017; DHS is planning to utilize this extension period to survey facilities to identify current facility needs and incorporate any equipment standardization plans, prior to releasing a solicitation for these services in the coming months.

The Joint Commission on the Accreditation of Health Care Organizations (The Joint Commission) requires facilities to ensure medical equipment undergoes routine preventive maintenance, and timely repairs for ongoing performance safety. Accordingly, endoscopes must be checked frequently for leaks, clogging, fluid invasion, as well as other needed repair and maintenance services. Proper maintenance is crucial to maximizing patient safety, as well as the endoscopes' effectiveness and longevity. These amendments will ensure proper care and services to a variety of endoscopes used to provide vital care for DHS patients.

## Olympus Amendment

Approval of the third recommendation will allow the Director, or his designee, to execute an amendment to the existing Agreement with Olympus, substantially similar to Exhibit III, to increase the total contract maximum obligation for additional Olympus endoscopes at LAC+USC Medical Center (LAC+USC MC), as these endoscopes were not previously included in the Agreement with Olympus. LAC+USC MC is the largest DHS facility and requires maintenance and repair services of its Olympus endoscopes at an annual cost of \$330,000. This amount exceeds the annual delegated authority of DHS to increase the amount of the Agreement. The term of this Agreement will not be affected.

Olympus endoscopes are standardized Department-wide for Gastroenterology, and this improves the ability of the County to negotiate with the OEM to not only obtain better prices, but also to provide efficient and effective resolutions to equipment maintenance and repair issues throughout DHS facilities. As the OEM, Olympus has access to new parts and is also capable of repairing highly complex scopes such as the Endoscopic Ultrasound Scope. These scopes are invaluable in getting very detailed images of an organ such as the pancreas by the use of sound waves captured by the probe. The sound waves are then converted into black and white images for the physician's interpretation.

## **Implementation of Strategic Plan Goals**

The recommended action(s) support(s) Goal 1, Operational Effectiveness/Fiscal Sustainability; and Goal 3, Integrated Services Delivery of the County's Strategic Plan.

## **FISCAL IMPACT/FINANCING**

The total annual amount of the Agreement with ILB is \$853,000. The total annual amount of the amendments to the five existing Master Agreements for endoscopes is estimated to be \$456,000, and the projected annual amounts by facility for these Agreements are identified in Attachment B. The Amendment to the Agreement with Olympus increases the annual amount by \$330,000.

Funding is included in the DHS Fiscal Year (FY) 2016-17 Recommended Budget, and will be requested in future fiscal years as necessary.

## **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

The Board initially approved an Agreement with Pouk & Steinle as a Purchase Order conversion, to provide critical facility maintenance and repair services of high voltage electrical systems at Rancho Los Amigos National Rehabilitation Center. On May 28, 2010, DHS executed an amendment under delegated authority for the assignment and delegation of the Agreement to ILB, due to ILB's purchase of Pouk & Steinle.

Subsequent amendments increased the annual maximum obligation and also added additional DHS facilities. In order to determine if there were other firms who could provide the required services, DHS released a Request for Information (RFI) in April 2010, and received three responses, including one from ILB. The other two firms did not meet all the required qualifications and DHS subsequently requested an extension of the ILB Agreement term.

DHS is requesting the current extension as DHS has identified varied definitions of high and medium voltage, and so seeks to further research and prepare a clear detailed solicitation for DHS electrical distribution systems. The goal is to minimize confusion of the industry definitions between high and medium voltage, in order to gather the maximum number of responses from qualified vendors.

On May 31, 2011, the Board approved Master Agreements with five contractors for non-Olympus endoscope maintenance and repair for the period July 1, 2011 through June 30, 2016.

On June 30, 2015, the Board approved a sole source successor Agreement with Olympus for endoscope maintenance and repair for the period, August 1, 2015 through July 31, 2020, with two, one-year extension options, at an annual rate of \$767,986. The Board also approved delegated authority to increase the total annual obligation by no more than 40%. Under this delegated authority, subsequent Administrative Amendments increased the annual maximum obligation to \$856,227 so that additional equipment coming off warranty could be added to the Agreement. When the Agreement was first approved, LAC+USC MC was in the process of standardizing equipment and has since determined that Olympus endoscopes are the standard for the Gastrointestinal Unit at a cost of \$330,000 annually.

The agreements include the Board of Supervisors' required provisions, including the most recent provision, Time Off for Voting.

The services provided under these agreements are highly specialized and cannot currently be provided by County staff. Further, these services are only needed on a part-time or intermittent basis. Therefore, the agreements are not subject to the Living Wage Program (Los Angeles County Code Chapter 2.201) and are exempt from Proposition A (Los Angeles County Code Chapter 2.121).

County Counsel has approved Exhibits I, II and III as to form.

## **CONTRACTING PROCESS**

DHS previously conducted an RFI to identify qualified vendors with hospital experience to provide

preventive maintenance and repair of critical electrical distribution systems. Of the three responses, only ILB qualified.

Olympus endoscopes require services of the OEM for maintenance and repair. OEMs use proprietary technology in their equipment to ensure that their competitors cannot service the equipment, or to limit the availability of their parts to a third-party. When the warranty expires, the best means to ensure that the equipment is maintained in accordance with equipment specifications is to contract with the OEM. Another benefit of contracting with the OEM is a guarantee of faster access to OEM parts when emergency repair services are needed.

**IMPACT ON CURRENT SERVICES (OR PROJECTS)**

Approval of the recommendations will ensure DHS is able to obtain ongoing critical equipment maintenance and repair services for medical facility operations and direct patient care.

Respectfully submitted,

F. Federal Access to Records: If, and to the extent that, Section 1861(v)(1)(I) of the Social Security Act (42 U.S.C. Section 1395x(v)(1)(I)) is applicable, the Contractor agrees that for a period of four (4) years following the furnishing of services under this Agreement, the Contractor shall maintain and make available, upon written request, to the Secretary of the United States Department of Health and Human Services or the Controller General of the United States, or to any of their authorize representatives, the Agreements, books, documents and records of the Contractor which are necessary to verify the nature and extent of the costs of services provided hereunder. Furthermore, if the Contractor carries out any of the services provided hereunder through any subcontract with a value or cost of Ten Thousand Dollars (\$10,000) or more over a twelve (12) month period with a related organization (as that term is defined under Federal law), the Contractor agrees that each such subcontract shall provide for such access to the subcontract, books, documents and records of the subcontractor.

9. Agreement, Schedule G, Pricing Schedule, is modified to add Schedule H, attached hereto and incorporated herein by reference.

10. Except for the changes set forth hereinabove, Agreement shall not be changed in any respect by this Amendment.
